Highly expressed genes (constitutive layer)

Testes

multi−organism reproductive process 699/1448
cytoplasmic translation 101/118
peptide transport 534/1019
nuclear−transcribed mRNA catabolic process, nonsense−mediated decay 74/83
SRP−dependent cotranslational protein targeting to membrane 58/63
translational initiation 109/142
intracellular protein transport 390/689
protein localization to endoplasmic reticulum 70/87
protein localization to membrane 206/367
peptide biosynthetic process 203/392

0 250 500 750

Accessory Gland

translational initiation 93/142
SRP−dependent cotranslational protein targeting to membrane 56/63
phosphorylation 339/1144
cytoplasmic translation 95/118
peptide biosynthetic process 176/392
protein localization to endoplasmic reticulum 69/87
amide biosynthetic process 201/418
purine ribonucleoside monophosphate metabolic process 129/207
ATP metabolic process 134/219
peptide transport 348/1019

0 100 200 300 400

Abdomen

translational initiation 91/142
SRP−dependent cotranslational protein targeting to membrane 56/63
protein localization to endoplasmic reticulum 70/87
cytoplasmic translation 93/118
purine ribonucleoside monophosphate metabolic process 128/207
ATP metabolic process 129/219
phosphorylation 313/1144
nuclear−transcribed mRNA catabolic process, nonsense−mediated decay 60/83
amide biosynthetic process 188/418
peptide biosynthetic process 157/392

0 100 200 300 400

Distal Ovary

translational initiation 94/142
SRP−dependent cotranslational protein targeting to membrane 55/63
protein localization to endoplasmic reticulum 60/87
peptide biosynthetic process 144/392
nuclear−transcribed mRNA catabolic process, nonsense−mediated decay 61/83
cytoplasmic translation 94/118
amide biosynthetic process 151/418
multi−organism reproductive process 296/1448
peptide transport 229/1019
intracellular protein transport 182/689

0 100 200 300 400

Proximal Ovary

translational initiation 101/142
SRP−dependent cotranslational protein targeting to membrane 56/63
multi−organism reproductive process 470/1448
cytoplasmic translation 98/118
nuclear−transcribed mRNA catabolic process, nonsense−mediated decay 65/83
peptide biosynthetic process 161/392
protein localization to endoplasmic reticulum 65/87
amide biosynthetic process 171/418
peptide transport 342/1019
protein localization to membrane 144/367
