Proximal Ovary
Distal Ovary
All immune terms
immune response
Toll signaling pathway
antimicrobial humoral response
innate immune response
defense response to Gram−negative bacterium
defense response to Gram−positive bacterium
peptidoglycan recognition protein signaling pathway
defense response to other organism
−0.2
0.0
0.2
0.4
Mean shift of the set relative to other genes (positive = higher in mated)
FDR >= 0.05
